ABOUT ME

Frontend Developer with hands-on experience building modern, high-performance web applications using Vue.js, Nuxt.js, React, and Next.js. Strong focus on clean UI, animations, SEO, and performance optimization. In addition to frontend expertise, I have solid backend experience using Laravel and Filament, having developed complete CMS platforms and backend systems for real-world projects.

EXPERIENCE

Ejad solutions - Frontend Feb 2024 – Present

- Develop and maintain frontend applications using Vue.js, Nuxt.js, React.js, and Next.js
- Build SEO-optimized landing pages and CMS-based websites
- Implement clean, scalable UI with performance
- Collaborate with backend systems to integrate APIs and dynamic data

Ejad solutions - Backend Feb 2026 – Present

- Started handling backend tasks using NestJS, contributing to API development and business logic.

PROJECTS

Warsha Plus — Freelance

A platform connecting workshop owners with customers seeking professional services.

- Developed a complete backend CMS using Laravel and Filament
- Designed system architecture, database, and business logic
- Implemented content management, roles, and permissions
- Provided backend support for frontend integration through API
